1. Rise AI Suite

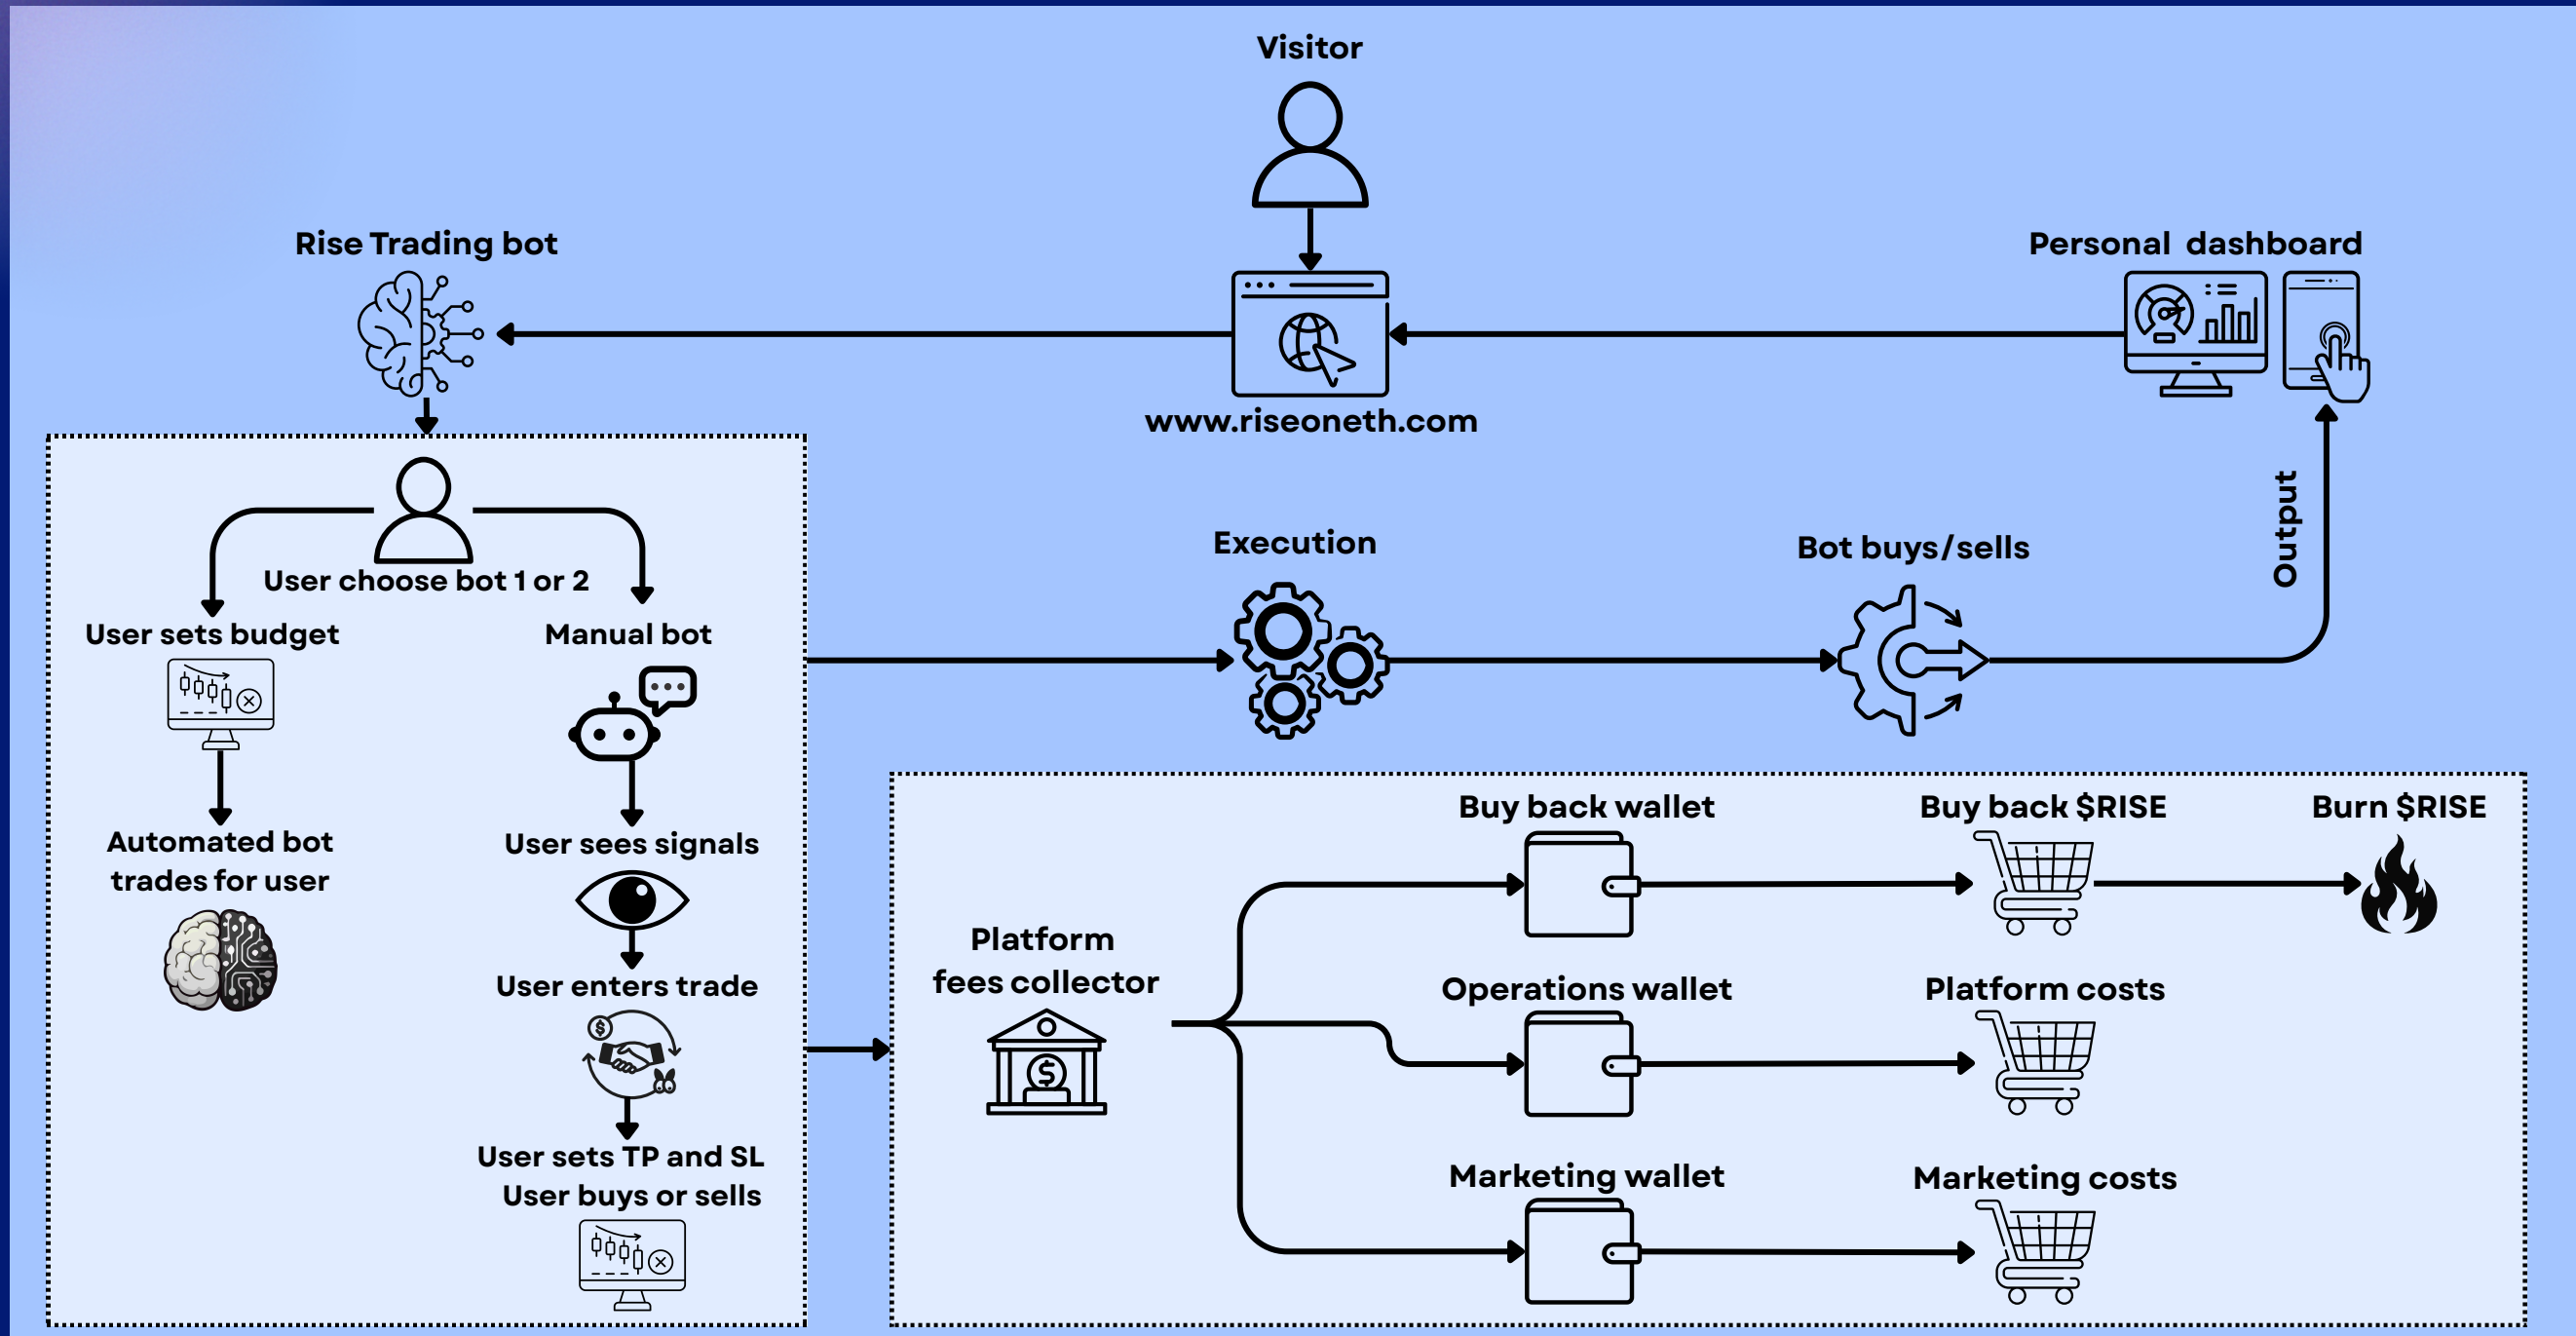

Rise AI Suite is a business workspace where you can build, manage, and scale content, media, and operations in one system.

2. Automated trading

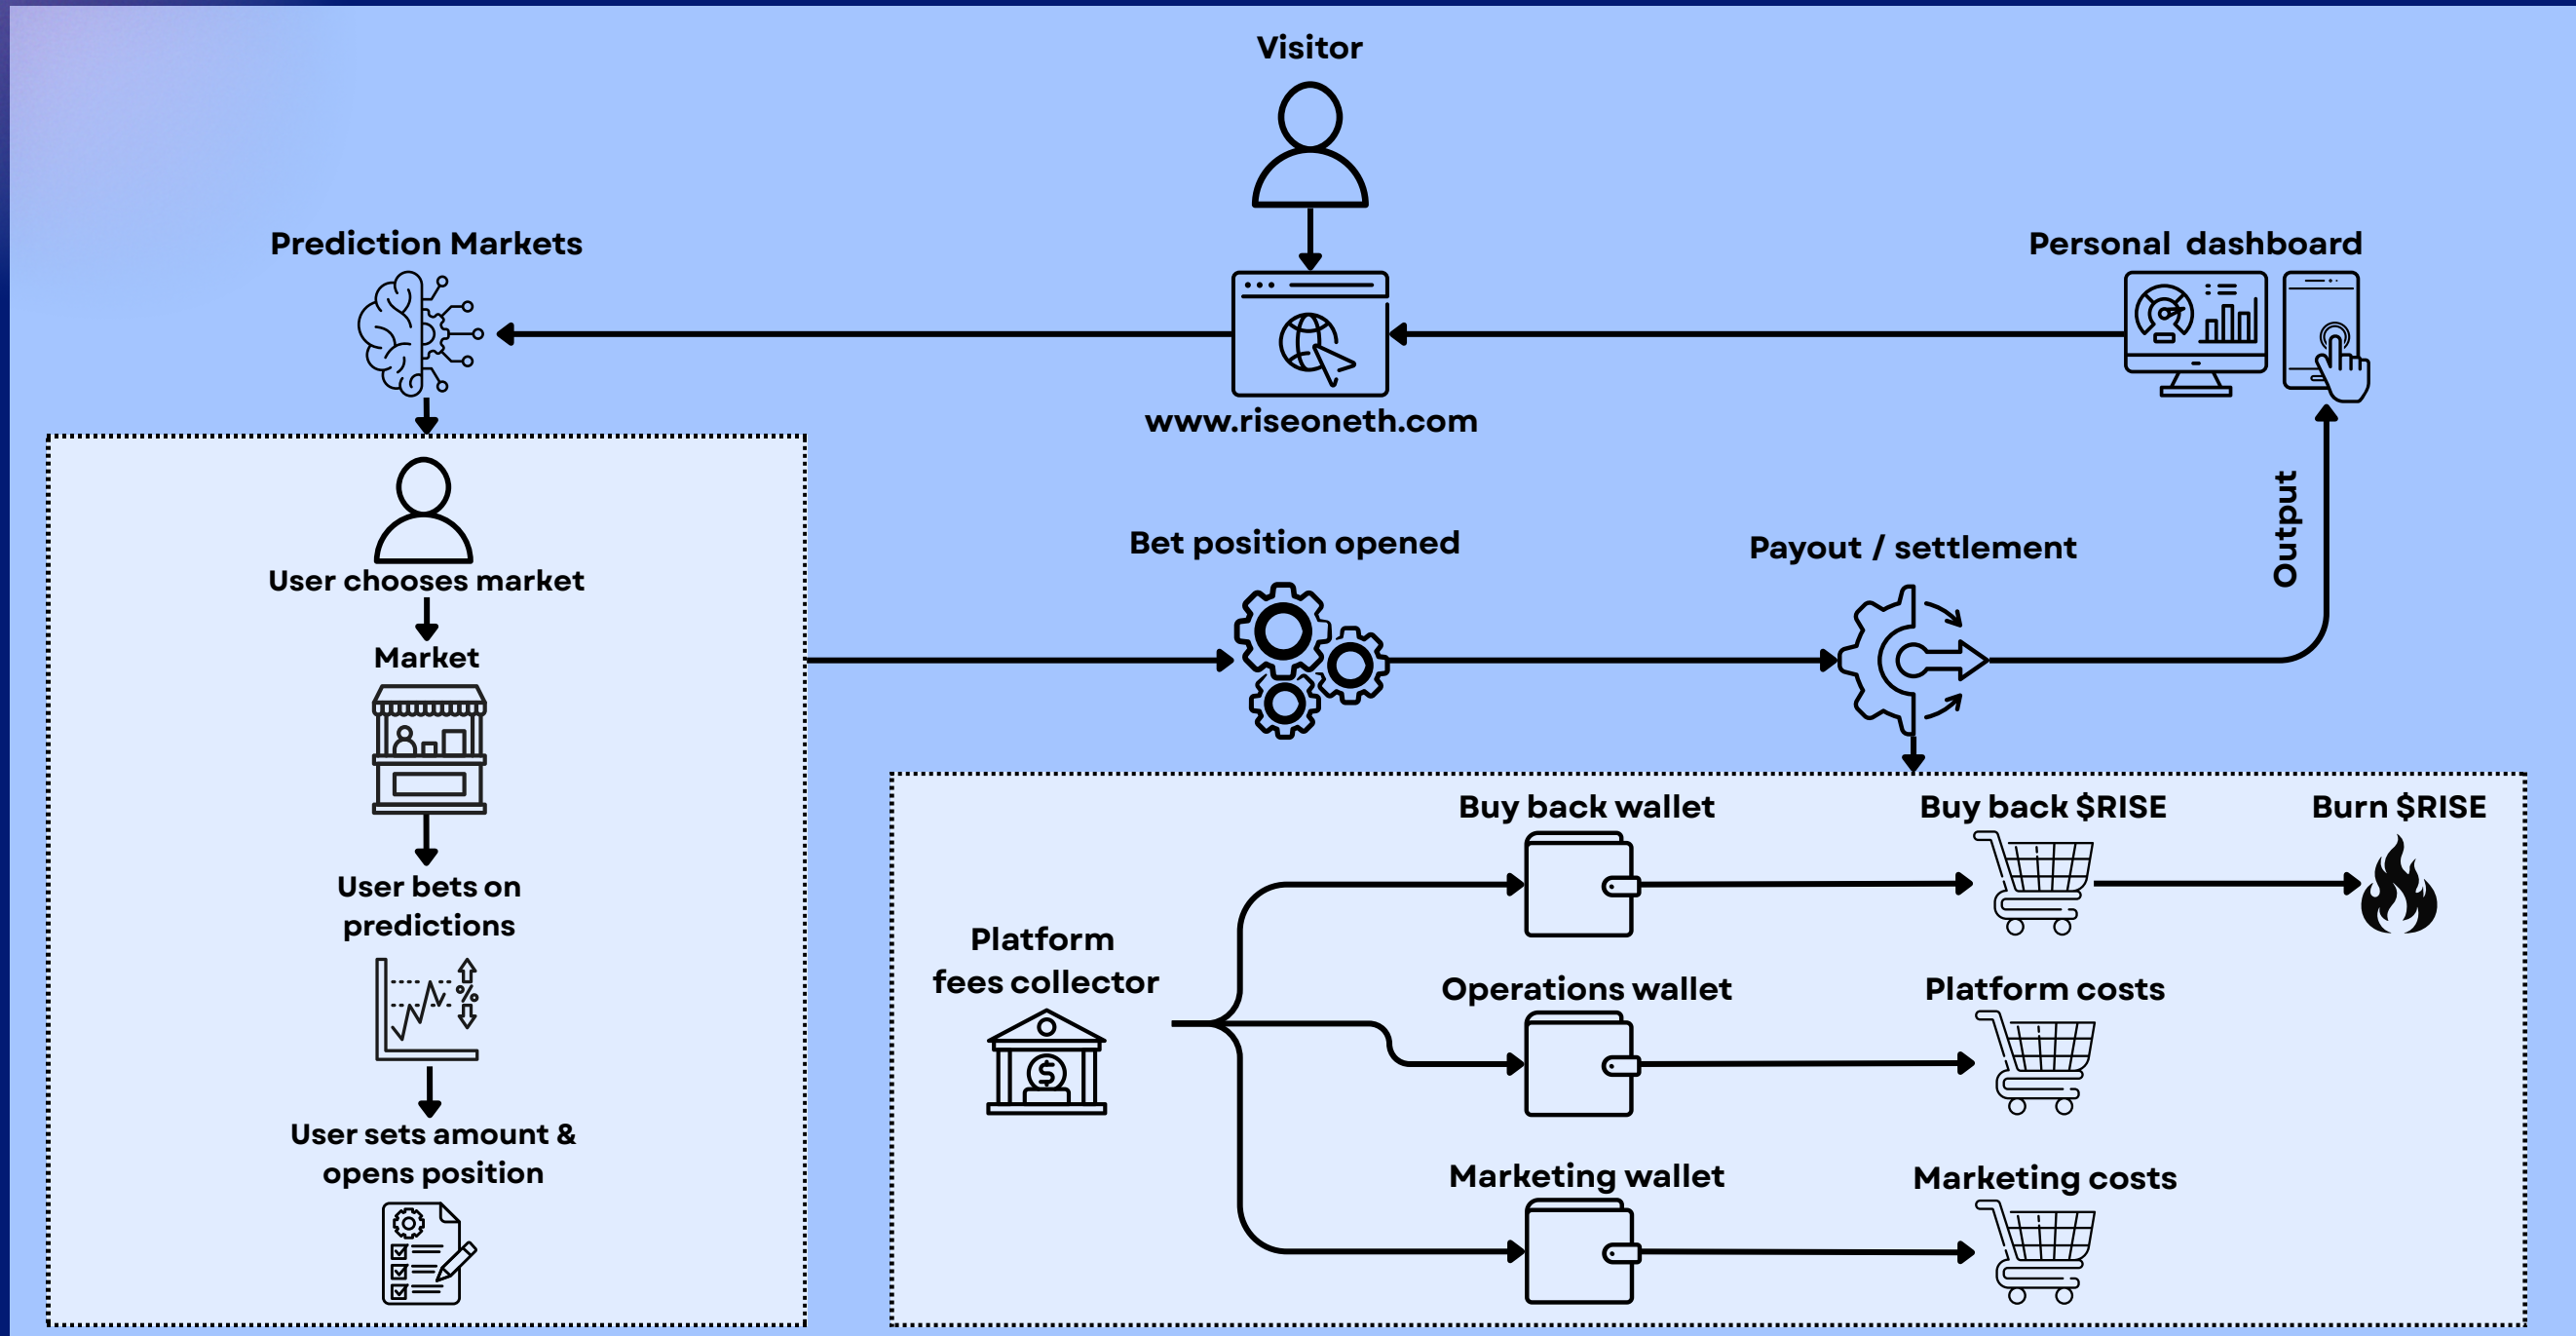

Rise Automated Trading runs strategy-based trades automatically using signals and predefined rules.

3. Prediction markets

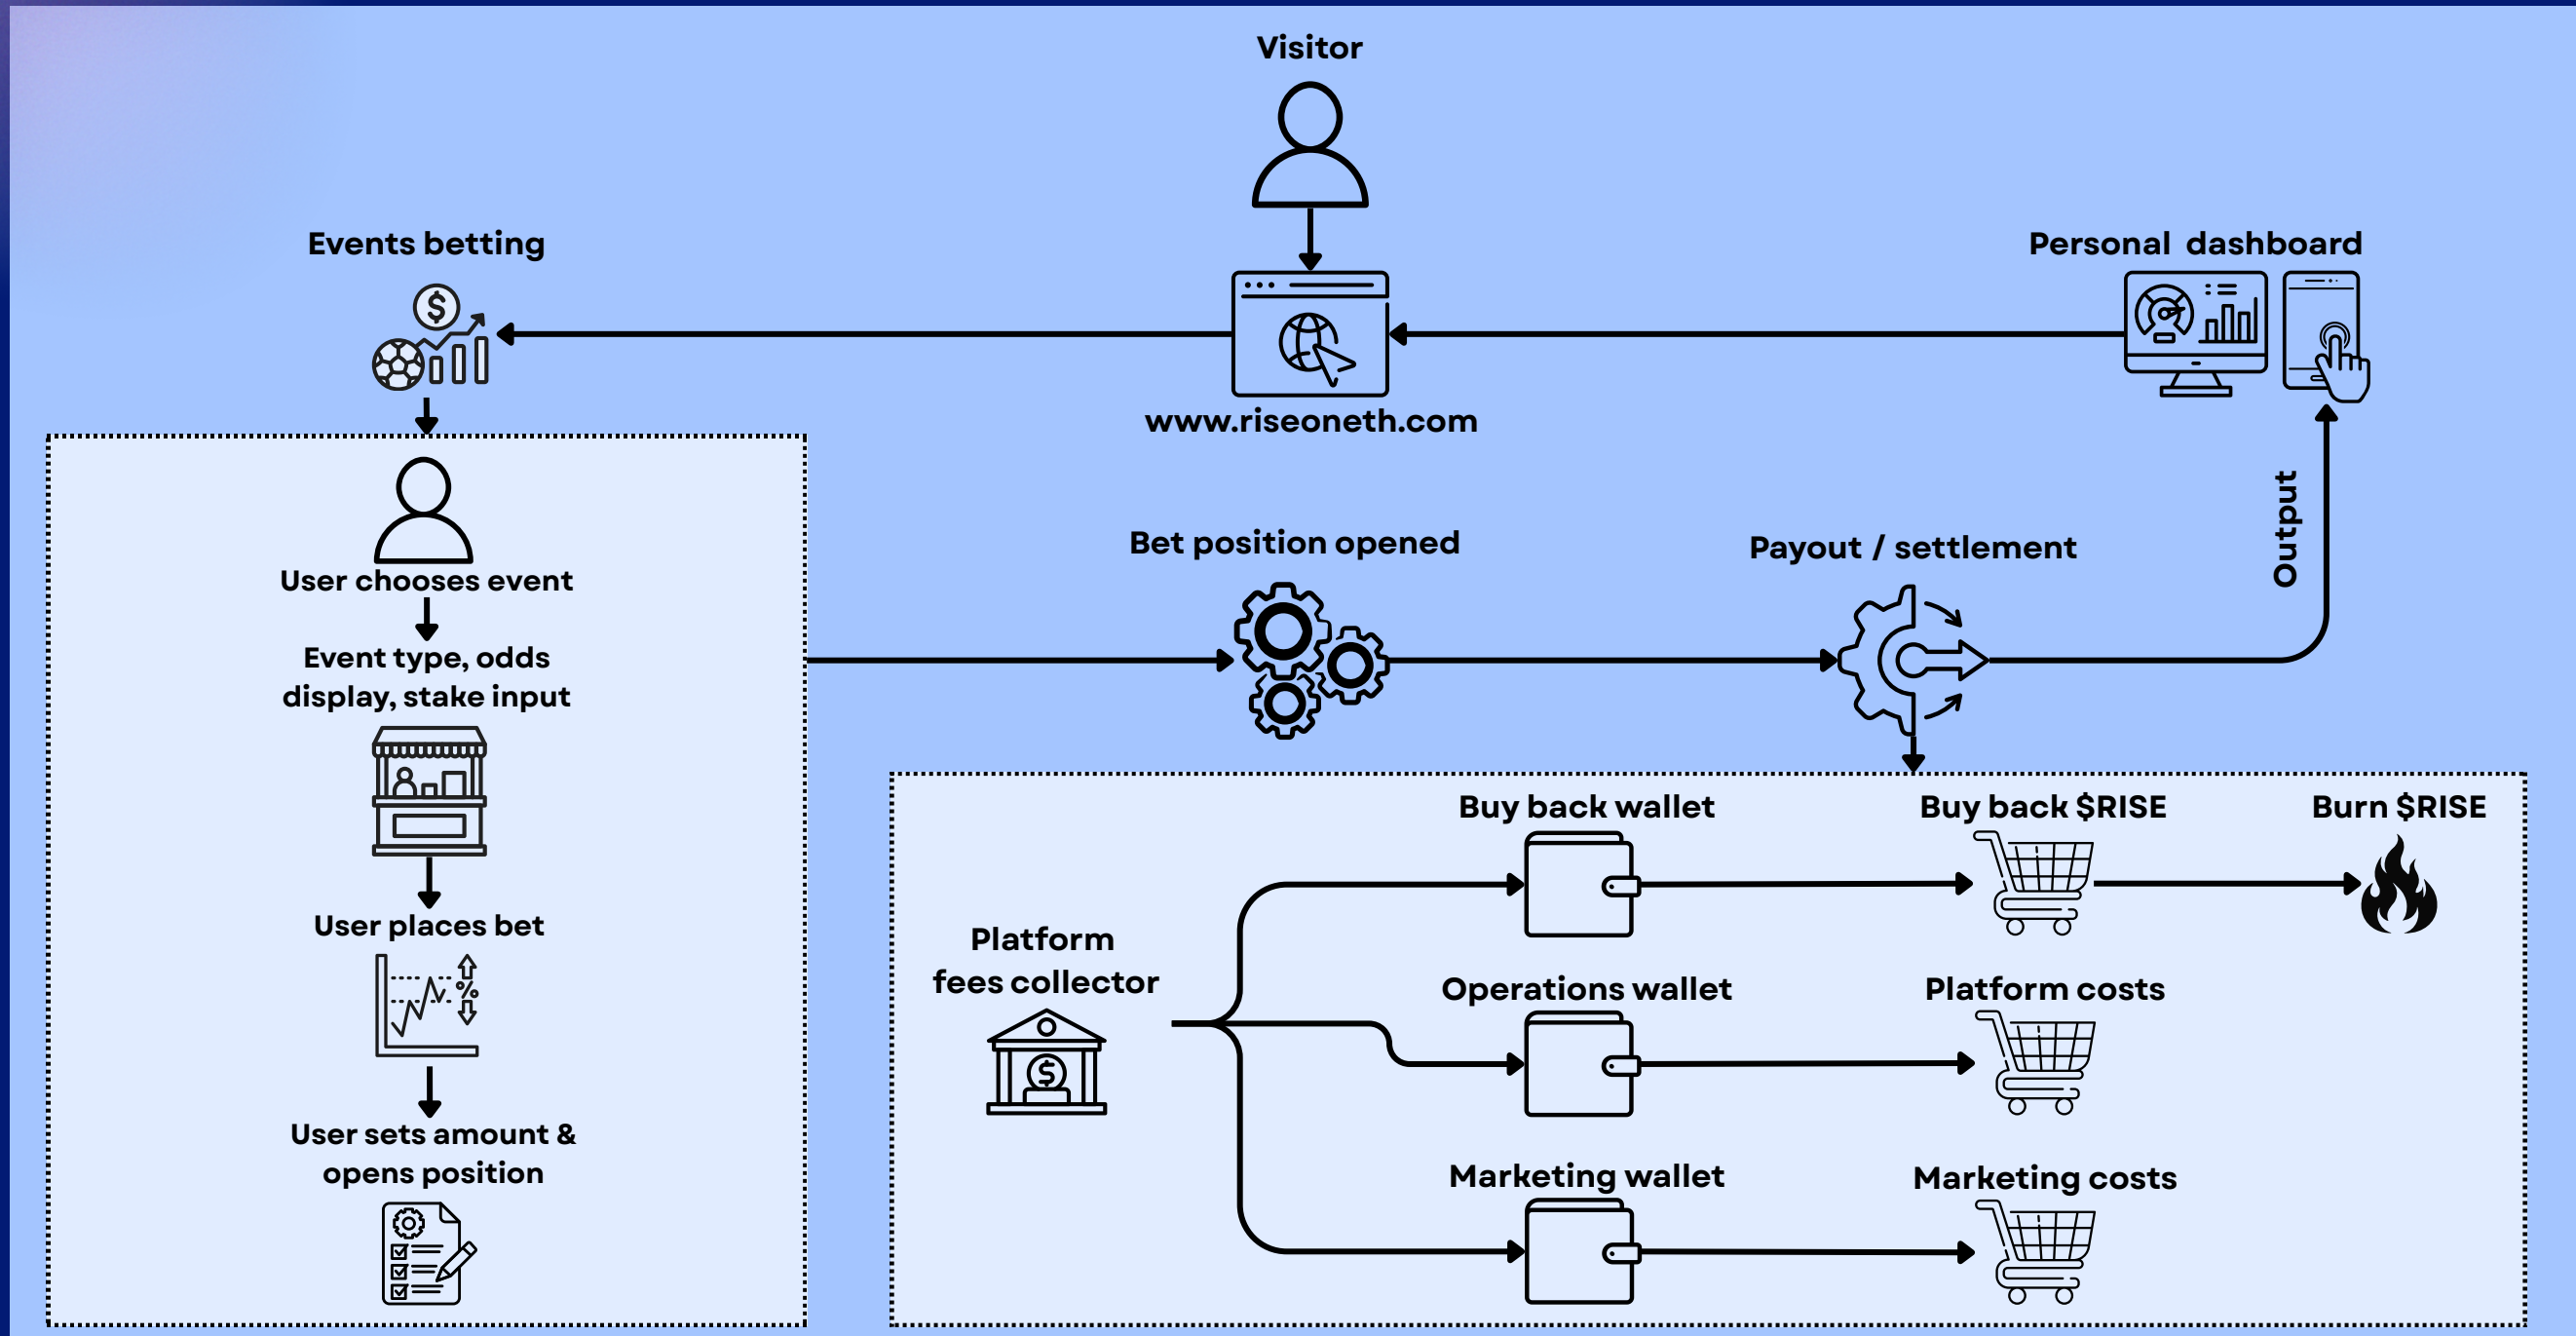

Prediction markets lets users trade on the outcomes of real-world events, with transparent odds and on-chain settlement.

4. Events betting

Events betting lets users place bets on live and scheduled events with real-time odds and automated payout execution.

5. Merchandise store

Merchandise Store lets users create, showcase, and sell branded products directly within the Rise ecosystem.
